

STUDENT SUICIDE PREVENTION AND AWARENESS

The Greenfield-Central Community School Board recognizes that suicide is one of the leading causes of death for Indiana youth. This policy is meant to increase child suicide awareness and prevention. The School Board believes there must be a partnership between families, the community, and the School Corporation.

To that end, the Corporation cooperates with the larger community including suicide prevention services. Information regarding such suicide prevention services located in our community can be found Hancock Health website – www.hancockregionalhospital.org. Further, information regarding crisis intervention referral is available to students, parents, and School Corporation employees on the School Corporation website – www.gcsc.k12.in.us.

The Corporation provides counseling services for students and families related to suicide prevention.

The Corporation recognizes the relationship between suicide and drug and alcohol use. The plan, training, and any other program authorized under this policy shall increase awareness of this correlation.

The Corporation shall provide training to Corporation employees consistent with Indiana law. The training will address warning signs and tendencies that may evidence a student is considering suicide.

Consistent with Indiana law, the Superintendent or his/her designee shall develop a plan to assist survivors of attempted suicide and to assist students and Corporation employees to cope with a suicide or attempted suicide. The Superintendent or his/her designee may develop any other program or activity appropriate to increase awareness and prevention of child suicide.
