EMERGENCY PLAN OF ACTION

1. If the student exhibits any signs of a seizure, notify the clinic immediately. Note the time the seizure began.
2. Protect the student from injury during the seizure. Remove any hard or sharp objects from the immediate area. Do not attempt to restrain the student's movements. Do not place any object into the student's mouth. If available, place a blanket, jacket, pillow, etc., under the student's head.
3. Turn the student on their side, while continuing to protect their head from injury.
4. Do not leave the student alone. Evacuate students, visitors, and unnecessary staff from the area.
5. Following the seizure, document what happened before, during, and after the seizure, the time seizure began, the length of the seizure, and what seizure activity was present.
6. Notify parents of the seizure activity.
7. Call 911 immediately if any of the following are present:
    a. Absence of breathing and/or pulse – begin CPR for respiratory or cardiac arrest
    b. Seizure lasts five minutes or greater
    c. Two or more consecutive seizures
    d. Any difficulty breathing
